Penmere Manor Hotel remains correctly classified at Three Stars with an AA Merit Score of 80% having been well maintained. Physically, the hotel is in good shape, good to see upgrades to restaurant decor and new corridor carpets to be in place. Rm 21 offered a good level of quality with standards consistent in all cases with diligent maintenance and all mandatory requirements in place. Similar comments apply equally to the bathroom of rm 21, durability, practicality and ease of use all sound here. With regard to housekeeping, a few checks revealed no significant areas of weakness throughout bedroom and bathroom occupied along with the public areas. Public areas are well appointed with spacious lounge provision and designated reception facility, ad hoc dining room worked well on this visit, a light and airy environment with the green views an added bonus. Externally, the exterior is in sound shape and first impressions on arrival are positive. Mr Moore is thanked for his time and conversation, all the best for the 2017 season.
